It does mean that we won't close saloons on Sunday, for we don't mean to work the farce that is worked here.

"Palmer's election was just what we wanted. The entrance of young men into municipal politics is the salvation of them, as it will result in getting the control of our cities out of the hands of the men who make a business of politics. ern science proves that nearly all diseases have their teginning in the disorder of these most important organs.

The kidneys fliter and purify the blood—that is their work. So when your kidneys are weak or out of order you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are are sick or "feel badly," begin taking the famous new discovery. Dr. Kilmer's Swamp-Root because as soon as your kidneys are well they will help all the other organs to health. A trial will convince any one.

Many women suffer untold misery because the nature of their disease is not correctly understood; in most cases they are led to believe that womb trouble or female weakness of some sort is responsible for their many ills, when in fact disordered kidneys are the chief cause of their distressing troubles.

Neuralkia, nervousness, headache, puffy or dark circles under the eyes, rheumatism, a dragging pain or dull ache in the back, weakness or bearing down sensation, profuse or scanty supply of urine, with strong odor, frequent desire to pass it night or day, with scalding or burning sensation—these are all unmistakable signs of kidney and bladder trouble.

If on examination it is milky or cloudy, if there is a brick-dust settiling, or if small particles float about in it, your kidneys are in need of immediate attention.
